

Belgian-Dutch Conference on Machine Learning and Workshop Predictive Modeling in the Life Sciences

Call for Papers and Abstracts

The 21st edition of the annual Belgian-Dutch Conference on Machine Learning (BeneLearn) will be organized in Ghent, in conjunction with a workshop on Predictive Modelling in the Life Sciences (PMLS). This joint event takes place on the 24th and 25th of May 2012 at the Faculty of Bioscience Engineering of Ghent University. BeneLearn serves as a forum for researchers in machine learning, knowledge discovery, pattern recognition, data mining and diverse application domains.

www.benelearn2012.ugent.be

In addition to theoretical and applied work in machine learning, we warmly welcome applications in areas such as bioinformatics, medicine, systems biology, chemometrics, environmental sciences, agriculture, food sciences.

Paper and abstract submission:	March 2nd 2012
Notification of acceptance:	April 6th 2012
BeneLearn 2012:	May 24th 2012
Workshop PMLS:	May 25th 2012

Organization:

**Research Unit
Knowledge-based
Systems**

**Bernard De Baets
Michaël Rademaker
Willem Waegeman**

Bernard Manderick
